About US

We convey our humble gratitude to our esteemed channel partners who are going to participate and support and leads us to reach the needs of the farming community. We are committed to the success of the farmers by promising quality products that survive any climatic and adverse conditions and give the substantial yields. The operations of the company are rendered in a highly professional manner ensuring the quality right from the research material and to delivery to farmers in packaged form. The processing and packaging is done in the state-of-the-art facility under the supervision and care of experience staff of the company. We assure the farmers, distributors and dealers that our high quality products will serve to the farming needs at the best forever.

The company is committed to provide best quality products to farmers to maximize agriculture production, profitability and prosperity (employing various levels of workflow in Research & Development). The directors acquired rich and varied experience in this industry over the past several years. A team of experienced employees renders managerial and technical services to the company.

I MAGIC is an advanced bio-technology research product containing highly specialised bio components in natural form which gives very powerfull plant resistance to fight against all types of Pests and diseases.

Dosage: 0.5gm per 1 litre of water.

For usage of all crops

Pack size: 100gm

TRUMP is an advanced bio-technology research product containing highly specialised bio components in natural form which gives very powerfull plant resistance to fight against all types of Pests and diseases.

Dosage: 2ml per 1 litre of water.

For usage of all crops

Pack size: 1000ML, 500ML, 250ML, 100ML

IAS Imparts Resistance Against Bacterial Diseases like Leaf Blight Black Arm Leaf Spot Seeding Blight etc

Dosage 2 ml per 1 litre of water.
For usage of all crops
Pack size: 1000ML, 500ML, 250ML, 100ML

F2 is an advanced bio-technology research product containing highly specialised bio components in natural form which gives very powerful plant resistance to fight against all types of Pests and diseases.

Dosage: 2ml per 1 litre of water.
For usage of all crops
Pack size: 1000, 500, 250, 100

OXYGEN is an advanced bio-technology research product containing highly specialised bio components in natural form which gives very powerful plant resistance to fight against all types of Pests and diseases.

Dosage: 5K Per Acre
For usage of all crops
Pack size: 10kg, 5kg

TRANSFORMER is an advanced bio-technology research product containing highly specialised bio components in natural form which gives very powerful plant resistance to fight against all types of Pests and diseases.

Dosage: 2ml per 1 litre of water.
For usage of all crops
Pack size: 1000ML, 500ML, 250ML, 100ML

IGRO Boost plant Nutrient uptake system. It has many micro and macro nutrients and trace elements which will be useful for increase of quality and quantity of the yield.

Dosage 2 ml per 1 litre of water.

For usage of all crops

Pack size: 1000ML, 500ML, 250ML, 100ML

JEEP is an advanced bio-technology research product containing highly specialised bio components in natural form which gives very powerful plant resistance to fight against all types of Pests and diseases.

Dosage: 2ml per 1 litre of water.

For usage of all crops

Pack size: 1000,500,250,100

IPOWER is an advanced bio-technology research product containing highly specialised bio components in natural form which gives very powerful plant resistance to fight against all types of Pests and diseases.

Dosage: 2ml per 1 litre of water.

For usage of all crops

Pack size: 1000ML, 500ML, 250ML, 100ML

KING is an advanced bio-technology research product containing highly specialised bio components in natural form which gives very powerful plant resistance to fight against all types of Pests and diseases.

Dosage: 0.5gm per 1 litre of water.

For usage of all crops

Pack size: 500ML, 250ML, 100ML

RED: is Aderived Arganic crop product which control spodoptera and heli coverpa and mights and thrips and growth and make the plant healthy.

Dosage 2 ml per 1 litre of water.
For usage of all crops
Pack size: 1000ML, 500ML, 250ML, 100ML

SPEED I San Advanced Bio-Techology Research Product to fight mits and thrips Against All Types of pests and Diseases.

Dosage 2 ml per 1 litre of water.
For usage of all crops
Pack size: 1000ML, 500ML, 250ML, 100ML

FOCUS for crop like chillies cotton paddy for others products Focus is a flowering stimulates substance high yield.

Dosage 2 ml per 1 litre of water.
For usage of all crops
Pack size: 1000ML, 500ML, 250ML, 100ML

PERFECT Rich in both organic and mineral Substances essential for plant growth which acts as a soil Conditioner, Plant Energizer and Yield Booster.

PERFECT Promotes uptake of macro and micro nutrients, Retains Water soluble in Organic fertilizer in the root zone and release them to plants when needed.
